I have been making an appearance in the cultural life, more or less knowingly, since 1995. I have taken part in over 130 group shows in Lithuania and abroad (Germany, Finland, Poland, Italy, Estonia, Latvia, Denmark, Japan, China and in other). I held 20 solo shows, curated more than 40 exhibitions mostly involving young artists and students and constantly organizing and leading creative workshops for those who are curious about printmaking and creating, taking part at international conferences with reports about creativity, ideas and education processes.

In this stage of my life I feel and comprehend the collective exhibitions, projects, actions, creative workshops, the pre-arranged or getting out of control happenings as something that is very meaningful and multidimensional. Also I consider the lecturer's duties and work with students at Vilnius Academy of Arts (VAA) as a personal artistic activity.

My art works have been awarded in various exhibitions and competitions. Some of them are included in the Graphic collection of the Lithuanian National Museum of Art, to the exposition of the Lithuanian Money Museum, Jyväskylä Art Museum. Works are in private collections in Lithuania, Estonia, Latvia, Finland, Germany, Spain, Portugal, Denmark, America, Japan, Canada, Switzerland, Austria.
