

- **Large format cold laminator Kaltlaminator**

For application of adhesive films and printed adhesive films or laminating on smooth surfaces - paper, cardboard, PS / PVC foam boards, plastic sheets, heavy substrates, such as stone mass boards, are not suitable. This laminator allows quick application of the substrate without wrinkles or scuffing.

It is possible to apply not only an adhesive film, but also a transparent laminate on a print to give it increased resistance to water, dirt and outdoor conditions (for the price of the laminate, contact the Print center). The maximum thickness of the base is about 10 mm, width - 73 cm. The base on which to apply the adhesive film is provided by the client.

Prices for lamination:

Service	Price
Lamination or application, single side, size smaller than SRA3 format	0,67 €
Lamination or application, single side, size A2 (B2) format	1,12 €
Lamination or application, single side, size A1 (B1) format	1,92 €
