

- **Vinyl cutter GCC Puma IV LX**

For cutting of shapes in adhesive vinyl films from vector files. It is possible to contour cut printed stickers. The maximum cutting width for adhesive film is 59 cm, the maximum length is 100 cm. The maximum cutting area for cutting printed stickers is smaller due to registration marks. Estimated price is for medium-sized items (such as 4,5 cm high letters). The final cost of contour cutting depends on the complexity of the vector contours.

Prices for contour cutting:
